

## Best-in-class Payments Consulting

At Elevation Consulting, powered by Nacha, we're not career consultants. Our team brings expertise from across the payments spectrum, including banks, technology providers, regulatory agencies and more.

### Our key services include:

- ★ **ACH Advisory** – Ensuring your ACH policies, procedures, process flows and more are compliant with the Nacha Operating Rules and Guidelines.
- ★ **ACH Assessments** – An in-depth review using our proprietary assessment tool, followed up with a report and scorecard.
- ★ **Product Readiness** – Helping clients better understand and integrate with the ACH Network and other payment rails, including RTP® and Zelle®.
- ★ **Payments Strategy** – Developing a payments strategy and technology roadmap that fits your business today—and ensures it remains nimble for whatever tomorrow brings.
- ★ **Custom Education** – Working with your organization to develop highly customized education for product and sales teams with a focus on specific products, services and customer base.

## These are just some of the clients Elevation Consulting has worked with:

“Elevation, the consulting arm of Nacha, brought both depth and breadth in overarching payments expertise to a huge global effort, virtually becoming a daily extension of my team. Elevation is, and will remain, a go-to set of resources for a fintech or FI that is embarking on any payments-related products/projects.”

M.A. Francis  
Global Head of Strategy and Product Payments, Treasury and Blockchain  
DXC Technology
