

# Get Ready to Become a Faster Payments Professional

Faster Payments  
Professional™

**Faster payments are here to stay, and with Same Day ACH, RTP®—plus whatever comes next—it's more important than ever to be prepared.**

The faster payments environment is dynamic. Payments professionals have a desire to fully understand the associated rules, regs and risks and to demonstrate their expertise. This is why Nacha, the Payments Innovation Alliance, and the Payments Associations created the Faster Payments Professional (FPP) certificate program.

- Nacha and the Payments Associations are leaders in payments education and have proficiency in building certificate and accreditation programs and training candidates for the APRP and AAP programs.
- The **Payments Innovation Alliance** is made up of diverse stakeholders in the faster payments space and bring that **experience and expertise** to designing the FPP program.
- Want to help craft the FPP certificate program from the ground floor? Now's your chance to help develop this program and define what it will take to **earn and maintain the FPP certificate**. Any employee of a Payments Innovation Alliance organization is able to **join the new Project Team**.

**Interested in earning the FPP Certificate when it's available?**

Visit [nacha.org/FPPinterest](https://nacha.org/FPPinterest), sign up, and we'll keep you updated once the program is available for enrollment.
